Check out the helpful Career Guide from PRSA

**PRSSA La Salle in the News...**
Several of our Members recently participated in the Broad Street Pilgrimage to see the Papal Mass on September 27. Vice President Elise Corbett did a reading and many students wore their PRSSA-sponsored Papal T-shirts. Read more here.

**MEMBER HIGHLIGHT**

Matt Mailloux, Sophomore

Matt joined PRSSA at the end of his freshman year and has kept busy at several of our Fall events. He is in the School of Business, pursuing a dual degree in Marketing and Business Systems & Analytics. Here’s what Matt has gotten out of his time in PRSSA.

As a business major, why did you join PRSSA?
I think it’s important to understand how organizations work in practice, plus it’s a very friendly atmosphere.

How did PRSSA impact your career?
So far, I’ve had two major internships. Even though I didn’t really interact with the publicity departments of either business, I feel that PRSSA helped prepare me for the networking aspects of the business world. My coworkers seemed to “get it” and understood how I could get the most of my internship.

How often do you check LinkedIn?
I check my LinkedIn at least twice a day. I think it’s a great tool, but not enough people use it actively.

What was your favorite PRSSA Event?
I enjoyed the events on campus run by PPRA that I found out about at PRSSA. I loved the panel discussion with industry leaders from Brian, LevLane, and Comcast. Hearing them talk about their daily lives was really helpful and interesting.

What are your future goals?
I want to help people be better at what they do, whether that’s helping a company promote itself or building a brand.

**COMING UP:**

**OCT 6: DINNER W/ DR. HANCYZ (5:00 TREETOPS)**

**OCT 13: SOCIAL MEDIA WORKSHOP (7:00 HOLROYD 22)**

---

The most common reason for students to enter college is to improve their job prospects. A new program developed in the Communication Department is designed to help students move up a few more steps of the career ladder.

The new program will enable students to receive both their BA and their MA in five years. Find this archived Charlie Talk article on our blog here.
